

REGISTRATION INSTRUCTIONS (Online Only)

New Clients

- New clients must create a profile in their DANCERS name. The client that purchases the enrollment is the client who is enrolled into the class.
- Upon completing your dancer's enrollment, a welcome email will be sent to the email address associated with their account. Parents must respond promptly to the Welcome email with the additional information requested.

Existing clients

- Existing clients who wish to register online, must log into their DANCERS profile. If you do not know the log in information for your dancers account, the office can provide you with a temporary password.
- The online registration directly from our website automatically enrolls the client that purchases the enrollment from the Register button. When registering from the Steffi Nossen website, register in your dancer's name. Billing information should be stored on your DANCERS account to finalize registration.
- To access your online account outside of our website, please visit <https://clients.mindbodyonline.com/classic/ws?studioid=115594&styp=-2&subTab=info>
Here you can also book multiple enrollments and checkout at once, manage relationships or add/remove family members, and manage account balances/automatic payment plans.
